Golden Oak: Enhanced Grain SB & Enhanced Grain

Republic of Ireland Retail Pricing Guide March 2023

RR

ALL PRICES INCLUDE VAT AT 23%

These prices are issued only to help consumers by providing typical retail prices for collecting quantities equivalent to 24 square metres or more from a retailer in Republic of Ireland.

Millboard does not sell directly to consumers. This price guide is not an offer to supply, nor a promise that the products can be obtained at the guide prices indicated. Actual prices charged by retailers will vary depending on: Quantity; Delivery address; Delivery access; Offloading; Stock availability and Service provided.
These prices apply from 1st March 2023 to 30th June 2023

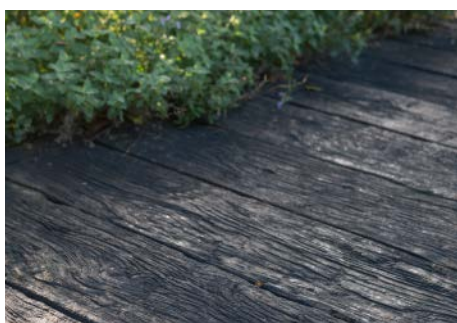

Why Millboard?

Our decking and cladding combines the beauty of natural timber with performance that real wood cannot match, providing long-lasting enhancement with minimal maintenance.

Hand-moulded from the finest pieces of oak, it boasts refined timber grain that mimics natural timber but is engineered to offer an enhanced decking experience.

Thanks to its unique polymer resin construction, our decking and cladding does not deteriorate like natural wood. Additionally, our unique surface provides exceptional slip-resistance, even when wet.

Hand moulded & coloured

Skilfully hand-crafted to ensure a high quality, premium product

'Lost-head' fixings

Durafix® fixings are virtually hidden beneath the unique Lastane® surface

Natural wood look

Moulded from selected timber for an organic, realistic wood-grain appearance

Integrated Lastane layer

Lastane® surface layer retains integrity of the boards over time

Wood & warp free

Non-timber composition prevents rot, warping and insect infestation

Algae resistant

More resistant to algae growth than natural timber

Recycled materials

Recycled materials and renewable biopolymers are used within our boards

High slip-resistance

Lower slip potential than timber due to the pliable Lastane® layer

Soft-touch surface

Unique Lastane® layer means no splinters on the surface

Impact & weather resistant

Elastomeric surface ensures increased resilience against natural weathering

Easy to install

Can be cut and installed easily when following product guides

Moisture resistant

Due to the non-porous composition, no sealing is required

Low maintenance

No staining or oiling needed. Only seasonal cleaning required

Integrated UV stabilisers

UV stabilised for better performance and fade resistance over time
